ABOUT THE INSTITUTION

Far from the madding crowd, surrounded by green fields Sant Darbara Singh College of Education for Women Lapon Moga came into existence in 1976 due to the most untiring efforts of Sant Darbara Singh Ji. With his mature vision, missionary zeal and single minded devotion to the cause of girls' education in the rural area, he did a great service.

Presently, the college is making significant contribution in the field of Teacher Education under the dynamic leadership and guidance of the President Sant Jagjit Singh Lapon. The college is running D.El.Ed., B.Ed., M.Ed. courses. The college has remarkable achievements to its credit in academic as well as co- curricular activities. The college has team of talented teachers who make their possible efforts to organize proper teaching learning process.

ABOUT THE FDP

A policy of inclusion is generally understood around the world as part of a human rights agenda that demands access to and equity in education. A frustration with the paradoxical nature of special needs education led many to embrace the idea of inclusive education as an alternative. Inclusive education is based on the principle that neighborhood schools should provide for all children, regardless of any perceived difference, disability or other social, emotional, cultural or linguistic difference. There is no easy way to these and other conjecture that have fuelled debates about special education versus inclusive education to be addressed and bringing all effort together. With this backdrop, **Sant Darbara Singh College of Education for women, Lapon (Moga)** in collaboration with Guru Ram Dass B.Ed. College Jalalabad, Kenway College of Education Abohar, Mata Sundri College, University of Delhi is organizing seven days Faculty Development Programme on "Vision 2022: A New Look towards Diversity & Inclusion".

OBJECTIVES OF THE FDP

- Raising awareness of the benefits of inclusive education for the general public as well as decision makers.
- Enhancing the capacities of policymakers for designing and implementing inclusive education policies.
- Improving the teacher competencies and practices for inclusive education.
- Making progress on the removal of real barriers for vulnerable groups including through stronger partnerships within a co-ordinated framework.
- To ensure all children to be part of their community and develop a sense of belonging and become better prepared for life in the community as children and adults.
- To provide better opportunities for learning as children with varying abilities are often better motivated when they learn in classes surrounded by other children.
- To raise the expectations of all the children by successful inclusion attempts to develop an individual's strengths and gifts.
- To allow children to work on individual goals while being with their peers.
- To encourage the involvement of parents & other stakeholders in the education of the children and the activities of their local schools.
- To foster a culture of mutual respect and belonging.
- To provide the opportunity to learn about and accept individual differences.
